Eval Comments: “The behaviors described today reflect the dog’s responses in an Animal Care Center environment and during assessment. A dog's behavior in an Animal Care Center may differ significantly from how they behave in a home. Stress, confinement, and unfamiliar surroundings can cause dogs to act out—or suppress behaviors that may emerge later. A dog's behavior may change based on surroundings, training, medical, socialization, and life experiences.”

Friendly, loose and wiggly at the gate. Easy to leash, moderate pull. Once in the yard he immediately engaged in play. Chase play and was appropriate trying to get other dogs to engage in play. Would default and submit onto his back/side when other dogs were too much

Ok for public, Large Dog Ok, KHOA for behavior in the prior home (NO Small Dogs/Animals REQ)
